

Agency Staffing Management

SCALABILITY

StafferlinkASM™ has a centralized data model capable of servicing any size agency from single office to nationwide enterprises.

STAFFING MODELS

StafferlinkASM™ seamlessly handles various staffing models including daily per diem and long term contract assignments. An optional Travel module provides client managers and recruiters tools for price/profit calculation and submissions management.

REQUIREMENTS

Technical requirements are minimal. All that is required is high speed internet access and a web browser. The preferred web browsers are IE 10 or higher, Google Chrome, Firefox, Opera, and Safari.

CONTACT

For more information on any of our products or services please call (770) 461-6500 or visit us on the Web at: www.stafferlink.com

Founded in 1995, Stafferlink, Inc. has dedicated and distinguished itself on providing robust and intuitive software solutions for the healthcare staffing industry.

StafferlinkASM™ provides healthcare staffing agencies with a turnkey solution to fully manage their agency. The system's abundant features are a result of many years of client input, feedback, and enhancement requests. Evolving technologies continually drive new and innovative enhancements to keep stride with this ever changing industry.
